The Modern Anthropology of South-East Asia

By Benjamin A. Elman

"The Global" and the "Local" in Early Modern and Modern East Asia

By Benjamin A. Elman

China's Hegemony

By J. Y. Young Lees

China's Hegemony: how China controlled her neighbors and became a global power

Studying malaria in modern East Asia in the context of the global history of the disease, this book fills an important gap in our understanding of the cultural, political, and economic dimensions of the relationship between malaria and human society in a region which has often been overlooked. It examines the development and consequences of various anti-malaria strategies in Hong Kong, Okinawa, Taiwan, mainland China, and East Asia as a whole. This book is a must-read for students and scholars of Asian history, medicine, and public health.

The Making of South East Asia

By Cordes 1983

The Modern Anthropology of South-East Asia

By Victor T. King

This book provides an overview of the major theoretical issues and themes which have emerged from the engagement of anthropologists with South-East Asian communities.

The Modern Anthropology of South-East Asia

In this important book, Victor T. King provides a critical assessment of the transformation of East Asia through Tumen River border disputes in a period of disaster, turbulence, and war.

Modern East Asia

East Asia

By R. Keith Schoppa

This book provides an introduction to the history, culture, and politics of modern East Asia, from the late 19th century to the present day.
The Columbia Companion to Modern East Asian Literature - Joshua S. Mostow 2003-07-10 This extraordinary one-volume guide to the modern literatures of China, Japan, and Korea is the definitive reference work on the subject in the English language. With more than one hundred articles that show how a host of authors and literary movements have contributed to the general literary development of their respective countries, this companion is an essential starting point for the study of East Asian literatures. Comprehensive thematic essays introduce each geographical section with historical overviews and surveys of persistent themes in the literature examined, including nationalism, gender, family relations, and sexuality. Following the thematic essays are the individual entries: over forty for China, over fifty for Japan, and almost thirty for Korea, featuring everything from detailed analyses of the works of Tanizaki Jun’ichiro and Murakami Haruki, to far-ranging explorations of avant-garde fiction in China and postwar novels in Korea. Arranged chronologically, each entry is self-contained, though extensive cross-referencing affords readers the opportunity to gain a more synoptic view of the work, author, or movement. The unrivaled opportunities for comparative analysis alone make this unique companion an indispensable reference for anyone interested in the literature of East Asia. Although the literatures of China, Japan, and Korea are each allotted separate sections, the editors constantly kept an eye open to those writers, works, and movements that transcend national boundaries. The waves of modernization can be seen as reaching each of these countries in a staggered fashion, with eddies and back-flows between them then complicating the picture further. This volume provides a vivid sense of this dynamic interplay.

The Civil Sphere in East Asia - Jeffrey C. Alexander 2019-02-21 Leading sociologists who live and work in East Asia examine their region’s most dangerous and explosive social problems, and some of their most stunning success stories, from the viewpoint of Civil Sphere Theory. This new and increasingly influential sociological understanding of democracy aims to describe and explain the moral codes and institutional foundations of democratic solidarity, as it manifests itself within a distinct social sphere. Part of a multi-volume project, this collection includes cases from Japan, mainland China, Hong Kong, Taiwan, and South Korea, bringing together efforts by sociologists based in East Asian academic institutions. Through an extraordinary blend of sophisticated social theory and path-breaking empirical research, The Civil Sphere in East Asia aims to advance civil sphere theory by globalizing and regionalizing it at the same time.
