The Art of Describing-
Svetlana Alpers 1989 The art historian after Erwin Panofsky and Ernst Gombrich is not only participating in an activity of great intellectual excitement; he is raising and exploring issues which lie very much at the centre of psychology, of the sciences and of history itself. Svetlana Alpers's study of 17th-century Dutch painting is a splendid example of this excitement and of the centrality of art history among current disciples. Professor Alpers puts forward a vividly argued thesis. There is, she says, a truly fundamental dichotomy between the art of the Italian Renaissance and that of the Dutch masters. . . . Italian art is the primary expression of a 'textual culture,' this is to say of a culture which seeks emblematic, allegorical or philosophical meanings in a serious painting. Alberti, Vasari and the many other theoreticians of the Italian
Renaissance teach us to 'read' a painting, and to read it in depth so as to elicit and construe its several levels of signification. The world of Dutch art, by the contrast, arises from and enacts a truly 'visual culture.' It serves and energises a system of values in which meaning is not 'read' but 'seen,' in which new knowledge is visually recorded.--George Steiner, Sunday Times

There is no doubt that thanks to Alpers's highly original book the study of the Dutch masters of the seventeenth century will be thoroughly reformed and rejuvenated. . . . She herself has the verve, the knowledge, and the sensitivity to make us see familiar sights in a new light.--E. H. Gombrich, New York Review of Books

**Poussin and the Dance**
Emily A. Beeny 2021-10-05
Richly illustrated and engagingly written, this publication examines how the pioneer of French classicism
brought dance to bear on every aspect of his artistic production. Scenes of tripping maenads and skipping maidens, Nicolas Poussin’s dancing pictures, painted in the 1620s and 1630s, helped him formulate a new style. This style would make him the model for three centuries of artists in the French classical tradition, from Jacques-Louis David and Edgar Degas to Paul Cézanne and Pablo Picasso. Poussin and the Dance, the first published study devoted to this theme, situates the artist in seventeenth-century Rome, a city rich with the ancient sculptures and Renaissance paintings that informed his dancing pictures. Tracing the motif of dance through his early Roman production, this book examines how these works helped their maker confront the problem of arresting motion, explore the expressive potential of the body, and devise new methods of composition. The essays investigate how dance informed nearly every aspect of Poussin’s artistic production, notably through his use of wax figurines to choreograph the compositions he drew and painted. This publication also considers Poussin’s dancing pictures within a broader context of seventeenth-century European culture, collecting, and patronage. This volume is published to accompany an exhibition on view at the National Gallery, London from October 9, 2021, to January 2, 2022 and at the J. Paul Getty Museum at the Getty Center from February 15 to May 8, 2022.

Walker Evans-Svetlana Alpers 2020-10-20 A magisterial study of celebrated photographer Walker Evans Walker Evans (1903–75) was a great American artist photographing people and places in the United States in unforgettable ways. He is known for his work for the Farm Security Administration, addressing the Great Depression, but what he actually saw was the diversity of people and the damage of the long Civil War. In Walker Evans, renowned art historian Svetlana Alpers explores how Evans made his distinctive photographs. Delving into a
lavish selection of Evans’s work, Alpers uncovers rich parallels between his creative approach and those of numerous literary and cultural figures, locating Evans within the wide context of a truly international circle. Alpers demonstrates that Evans’s practice relied on his camera choices and willingness to edit multiple versions of a shot, as well as his keen eye and his distant straight-on view of visual objects. Illustrating the vital role of Evans’s dual love of text and images, Alpers places his writings in conversation with his photographs. She brings his techniques into dialogue with the work of a global cast of important artists—from Flaubert and Baudelaire to Elizabeth Bishop and William Faulkner—underscoring how Evans’s travels abroad in such places as France and Cuba, along with his expansive literary and artistic tastes, informed his quintessentially American photographic style. A magisterial account of a great twentieth-century artist, Walker Evans urges us to look anew at the act of seeing the world—to reconsider how Evans saw his subjects, how he saw his photographs, and how we can see his images as if for the first time.

The Embarrassment of Riches-Simon Schama 1988 Describes the cultural and social milieu of seventeenth-century Holland, where, despite great material wealth and general prosperity, an "anxiety of superabundance" permeated all aspects of the culture.

Rembrandt's Enterprise-Svetlana Alpers 1990 Drawing on and furthering the enterprise of Rembrandt scholars, who have been reinterpreting the artist and his work over the past 25 years, Alpers presents new considerations about Rembrandt's handling of paint, his theatrical approach to his models, his use of his studio as an environment under his control, and his relationship to those who bought his work. Her study is timely in light of recent research showing that well-known works attributed to
Rembrandt are by followers instead. Alpers developed her text from a lecture series, and the prose gains readability by retaining some of the flavor of a talk. Still, this will find its audience chiefly among scholars and specialists in the field. Kathryn W. Finkelstein, M. Ln., Cincinnati Copyright 1988 Reed Business Information, Inc. -- From Library Journal.

**Vermeer's Hat**
Timothy Brook 2010-08-01 In this critical darling Vermeer's captivating and enigmatic paintings become windows that reveal how daily life and thought—from Delft to Beijing—were transformed in the 17th century, when the world first became global. A Vermeer painting shows a military officer in a Dutch sitting room, talking to a laughing girl. In another canvas, fruit spills from a blue-and-white porcelain bowl. Familiar images that captivate us with their beauty—but as Timothy Brook shows us, these intimate pictures actually give us a remarkable view of an expanding world. The officer's dashing hat is made of beaver fur from North America, and it was beaver pelts from America that financed the voyages of explorers seeking routes to China—prized for the porcelains so often shown in Dutch paintings of this time, including Vermeer's. In this dazzling history, Timothy Brook uses Vermeer's works, and other contemporary images from Europe, Asia, and the Americas to trace the rapidly growing web of global trade, and the explosive, transforming, and sometimes destructive changes it wrought in the age when globalization really began.

**Inventing Exoticism**
Benjamin Schmidt 2015-01-21
As early modern Europe launched its multiple projects of global empire, it simultaneously embarked on an ambitious program of describing and picturing the world. The shapes and meanings of the extraordinary global images that emerged from this process form the subject of this highly original and richly textured study of cultural geography. Inventing Exoticism draws on a vast range of sources from history, literature, science, and art to describe the energetic and sustained international engagements that gave birth to our modern conceptions of exoticism and globalism. Illustrated with more than two hundred images of engravings, paintings, ceramics, and more, Inventing Exoticism shows, in vivid example and persuasive detail, how Europeans came to see and understand the world at an especially critical juncture of imperial imagination. At the turn to the eighteenth century, European markets were flooded by books and artifacts that described or otherwise evoked non-European realms: histories and ethnographies of overseas kingdoms, travel narratives and decorative maps, lavishly produced tomes illustrating foreign flora and fauna, and numerous decorative objects in the styles of distant cultures. Inventing Exoticism meticulously analyzes these, while further identifying the particular role of the Dutch—"Carryers of the World," as Defoe famously called them—in the business of exotica. The form of early modern exoticism that sold so well, as this book shows, originated not with expansion-minded imperialists of London and Paris, but in the canny ateliers of Holland. By scrutinizing these materials from the perspectives of both producers and consumers—and paying close attention to processes of cultural mediation—Inventing Exoticism interrogates traditional postcolonial theories of knowledge and power. It proposes a wholly revisionist understanding of geography in a pivotal age of expansion and offers a crucial historical perspective on our own global culture as it engages in a media-saturated world.

The Books that Shaped Art History: From Gombrich and Greenberg to Alpers and Krauss - Richard Shone

2013-04-05 An exemplary survey that reassesses the impact of the most important books to have shaped art history through the twentieth century. Written by some of today’s leading art historians and curators, this new collection provides an invaluable road map of the field by comparing and reexamining canonical works of art history. From Émile Mâle’s magisterial study of thirteenth-century French art, first published in 1898, to Hans Belting’s provocative Likeness and Presence: A History of the Image before the Era of Art, the book provides a concise and insightful overview of the history of art, told through its most enduring literature. Each of the essays looks at the impact of a single major book of art history, mapping the intellectual development of the writer under review, setting out the premises and argument of the book, considering its position within the broader field of art history, and analyzing its significance in the context of both its initial reception and its afterlife. An introduction by John-Paul Stonard explores how art history has been forged by outstanding contributions to scholarship, and by the dialogues and ruptures between them.

The Last Painting of Sara de Vos - Dominic Smith

2016-04-05 “Written in prose so clear that we absorb its images as if by mind meld, “The Last Painting” is gorgeous storytelling: wry, playful, and utterly alive, with an almost tactile awareness of the emotional contours of the human heart. Vividly detailed, acutely sensitive to stratifications of gender and class, it’s fiction that keeps you up at night — first because you’re barreling through the book, then because you’ve slowed your pace to a crawl, savoring the suspense.” — Boston Globe

A RARE SEVENTEENTH-CENTURY PAINTING LINKS THREE
LIVES, ON THREE CONTINENTS, OVER THREE CENTURIES IN THE LAST PAINTING OF SARA DE VOS, AN EXHILARATING NEW NOVEL FROM DOMINIC SMITH. Amsterdam, 1631: Sara de Vos becomes the first woman to be admitted as a master painter to the city’s Guild of St. Luke. Though women do not paint landscapes (they are generally restricted to indoor subjects), a wintry outdoor scene haunts Sara: She cannot shake the image of a young girl from a nearby village, standing alone beside a silver birch at dusk, staring out at a group of skaters on the frozen river below. Defying the expectations of her time, she decides to paint it. New York City, 1957: The only known surviving work of Sara de Vos, At the Edge of a Wood, hangs in the bedroom of a wealthy Manhattan lawyer, Marty de Groot, a descendant of the original owner. It is a beautiful but comfortless landscape. The lawyer’s marriage is prominent but comfortless, too. When a struggling art history grad student, Ellie Shipley, agrees to forge the painting for a dubious art dealer, she finds herself entangled with its owner in ways no one could predict. Sydney, 2000: Now a celebrated art historian and curator, Ellie Shipley is mounting an exhibition in her field of specialization: female painters of the Dutch Golden Age. When it becomes apparent that both the original At the Edge of a Wood and her forgery are en route to her museum, the life she has carefully constructed threatens to unravel entirely and irrevocably.

The Rhetoric of Perspective-Hanneke Grootenboer 2006-12-31
Perspective determines how we, as viewers, perceive painting. We can convince ourselves that a painting of a bowl of fruit or a man in a room appears to be real by the way these objects are rendered. Likewise, the trick of perspective can prevent us from being absorbed in a scene. Connecting contemporary critical theory with close readings of seventeenth-century Dutch visual culture, The Rhetoric of Perspective puts forth the
claim that painting is a form of thinking and that perspective functions as the language of the image. Aided by a stunning full-color gallery, Hanneke Grootenboer proposes a new theory of perspective based on the phenomenological aspects of non-narrative still-life, trompe l'oeil, and anamorphic imagery. Drawing on playful and mesmerizing baroque images, Grootenboer characterizes what she calls their "sophisticated deceit," asserting that painting is more about visual representation than about its supposed objects. Offering an original theory of perspective's impact on pictorial representation, the act of looking, and the understanding of truth in painting, Grootenboer shows how these paintings both question the status of representation and explore the limits and credibility of perception. "An elegant and honourable synthesis."—Keith Miller, Times Literary Supplement

Fusing the social and economic history with the cultural and artistic achievements of seventeenth and eighteenth century Italy, this book presents a unique and invaluable perspective on the period.

**Vermeer and His Milieu**
John Michael Montias
2018-06-05 This book is not only a fascinating biography of one of the greatest painters of the seventeenth century but also a social history of the colorful extended family to which he belonged and of the town life of the period. It explores a series of distinct worlds: Delft's Small-Cattle Market, where Vermeer's paternal family settled early in the century; the milieu of shady businessmen in Amsterdam that recruited Vermeer's grandfather to counterfeit coins; the artists, military contractors, and Protestant burghers who frequented the inn of Vermeer's father in Delft's Great Market Square; and the quiet, distinguished "Papists Corner" in which Vermeer, after marrying into a high-born Catholic family, retired.
to practice his art, while retaining ties with wealthy Protestant patrons. The relationship of Vermeer to his principal patron is one of many original discoveries in the book.

Toward a Geography of Art-
Thomas DaCosta Kaufmann 2004-03-14
Art history traditionally classifies works of art by country as well as period, but often political borders and cultural boundaries are highly complex and fluid. Questions of identity, policy, and exchange make it difficult to determine the "place" of art, and often the art itself results from these conflicts of geography and culture.

Addressing an important approach to art history, Thomas DaCosta Kaufmann's book offers essays that focus on the intricacies of accounting for the geographical dimension of art history during the early modern period in Europe, Latin America, and Asia. Toward a Geography of Art presents a historical overview of these complexities, debates contemporary concerns, and completes its exploration with a diverse collection of case studies. Employing the author's expertise in a variety of fields, the book delves into critical issues such as transculturation of indigenous traditions, mestizaje, the artistic metropolis, artistic diffusion, transfer, circulation, subversion, and center and periphery. What results is a foundational study that establishes the geography of art as a subject and forces us to reconsider assumptions about the place of art that underlie the longstanding narratives of art history.

Techniques of the Observer-Jonathan Crary
1992-02-25 Jonathan Crary's Techniques of the Observer provides a dramatically new perspective on the visual culture of the nineteenth century, reassessing problems of both visual modernism and social modernity. This analysis of the historical formation of the observer is a compelling account of the prehistory of the society of the spectacle. In Techniques of the Observer Jonathan Crary provides a dramatically new perspective on the visual culture of the nineteenth century, reassessing problems of both visual modernism and social modernity. Inverting conventional approaches, Crary considers the problem of visuality not through the study of art works and images, but by analyzing the historical construction of the observer. He insists that the problems of vision are inseparable from the operation of social power and examines how, beginning in the 1820s, the observer became the site of new discourses and practices that situated vision within the body as a physiological event. Alongside the sudden appearance of physiological optics, Crary points out, theories and models of "subjective vision" were developed that gave the observer a new autonomy and productivity while simultaneously allowing new forms of control and standardization of vision. Crary examines a range of diverse work in philosophy, in the empirical sciences, and in the elements of an emerging mass visual culture. He discusses at length the significance of optical apparatuses such as the stereoscope and of precinematic devices, detailing how they were the product of new physiological knowledge. He also shows how these forms of mass
culture, usually labeled as "realist," were in fact based on abstract models of vision, and he suggests that mimetic or perspectival notions of vision and representation were initially abandoned in the first half of the nineteenth century within a variety of powerful institutions and discourses, well before the modernist painting of the 1870s and 1880s.

Men to Avoid in Art and Life - Nicole Tersigni
2020-08-11 Men to Avoid in Art and Life pairs classical fine art with modern captions that epitomize the spirit of mansplaining. This hilarious book perfectly captures those relatable moments when a man explains to a woman a subject about which he knows considerably less than she does. Situations include men sharing keen insight on the female anatomy, an eloquent defense of catcalling, or offering sage advice about horseback riding to the woman who owns the horse. • These less qualified men of antiquity dish out mediocrity as if it's pure genius • For the women who have endured overbearing men over the centuries • Written with
hilariously painful accuracy
"Now, when you're riding a horse, you need to make sure to keep a good grip on the reins." "These are my horses." Through cringe-induced empathy, this timeless gift book of shared experiences unites women across history in one of the most powerful forms of resistance: laughter. • Started as a Twitter thread and quickly gained widespread popularity. • Makes a perfect book for women and feminists with a wry sense of humor, millennials, anyone who loves memes and Internet humor, as well as history and art buffs. • You'll love this book if you love books like Men Explain Things to Me by Rebecca Solnit, Milk and Vine: Inspirational Quotes from Classic Vines by Emily Beck, and Awards For Good Boys: Tales Of Dating, Double Standards, And Doom by Shelby Lorman.
