Job-Specific Preparation for Aptitude, Reasoning
An aptitude test is one of the most popular methods employers use to measure your work-related cognitive ability. Aptitude tests typically are abstract reasoning tests, verbal reasoning tests and numerical reasoning tests. Each of these tests include specific test questions for each job and are always timed. It is important to practice for the type of aptitude test questions you will have in ...

Job interview - Wikipedia
A job interview is an interview
consisting of a conversation between a job applicant and a representative of an employer which is conducted to assess whether the applicant should be hired. Interviews are one of the most popularly used devices for employee selection. Interviews vary in the extent to which the questions are structured, from a totally unstructured and free ...
