Relative gain (international relations) - Wikipedia
Relative gain, in international relations, is the actions of states only in respect to power balances and without regard to other factors, such as economics. In international relations, cooperation may be necessary to balance power, but concern for relative gains will limit that cooperation due to the low quality of information about other

Introducing Feminisms in International Relations Theory

Securitization (international relations) - Wikipedia
Securitization in international relations and national politics is the process of state actors transforming subjects from regular political issues into matters of "security": thus enabling extraordinary means to be used in the name of security. Issues that become securitized do not necessarily represent issues that are essential to the objective survival of a state, but rather ...

power postcolonialism and international relations
After 1945, imperialism structured itself as a world system under US dominance. Thus, and this is true today, capitalism gave itself a framework for international action, both in the main a weakened but still toxic imperialism Modernist urban planning arranged along racial and class lines significantly contributed to the post-colonial cities we see today.
