Vistas of English for Specific Purposes-Nadežda Stojković 2015-10-05 English for Specific Purposes (ESP) is one of the most needed forms of English Language Teaching with regards to the adult population in today’s global market economy where the English language is a prerequisite for the exchange and communication of professional ideas, best practices, and experiences, and a necessary skill for advancement in one’s career. This comprehensive volume brings together the most insightful papers from the First International Conference on Teaching English for Specific and Academic Purposes, titled “Connect and Share”, held at the Faculty of Electronic Engineering of the University of Niš, Serbia, in May 2013. The collection covers a diverse and extensive list of topics, and provides a number of invaluable contributions which prove the presence of ESP in all continents, and in many different professions, sciences, and businesses. Also of interest is the fact these papers highlight the interrelatedness of ESP and linguistics, the methodology of teaching, sociolinguistics, and a number of other fields relevant to the study and practice of languages. The chapters of this book prove
that immense, original, creative and worthwhile research is being conducted in the ever-growing and increasingly relevant field of ESP. At the same time, the book also offers rich insights into many innovative teaching practices that justify ESP as an important area of academic study.

**Establishing Predominance of English for Specific Purposes within Adult English Language Teaching**-Nadežda Stojković 2019-01-22 English for Specific Purposes (ESP) has accumulated substantial tradition in practice, research and theory. It is a common approach in English Language Teaching (ELT) among adults today, starting with high schools, then in academia, pre and in-service training, and life-long learning programs. The role of ESP in each of these is to facilitate work in today’s inevitably international business and scientific environment. It provides language training based on the precise simulation of communicative situations found in the surroundings for which learners are preparing, including, for example, domain specific vocabulary, syntactic and morphological structures, text and speech content structuring, stylistics, intercultural competence. At present, when English is present either as a foreign or second language, learning
General English (GE) is to a large degree accomplished before learners start needing English for their jobs. In this way, ESP does not complete GE, but builds upon the foundations laid by it in learners’ prior education. ESP is a channel of communication for the contemporary academia and economics. However, even so, these are still early days for ESP, as it does not yet have a recognised place within academia. Only very recently have we begun to witness the occasional but encouraging emergence of ESP academic courses and departments. This book thus explores practice and research conducted and under way in this field of ELT in order to assist its recognition as an autonomous academic discipline.

Introducing Genre and English for Specific Purposes-Sunny Hyon
2017-10-12 Genre analysis has become a key approach within the field of English for Specific Purposes and helps students understand particular language use patterns in target contexts. Introducing Genre and English for Specific Purposes provides an overview of how genre has been conceptualized and applied in ESP, as well as the features that distinguish ESP genre research and teaching from those of other genre schools. The macro and micro aspects of ESP genre-based pedagogy are also analysed and include: different possibilities for planning and designing an ESP genre-based course; the concrete, micro aspects of materials creation; and how genres can be learned through play. Introducing Genre and English for Specific Purposes is essential reading for students and pre-service teachers who are studying Genre, English for Specific Purposes or language teaching methodologies.

Aspects of Language Development in an Intensive English Program-Alan Juffs 2020-03-20 While there is much in the literature on ESL development, this book is the first of its kind to
track the development of specific language abilities in an Intensive English Program (IEP) longitudinally and highlights the implications of this particular study’s findings for future IEP implementation and practice and ESL and SLA research. The volume draws on many years’ worth of data from learners at an IEP at the University of Pittsburgh to explore selected aspects of language development, including lexical, grammatical, speaking, and writing abilities, in addition to placement assessment practices and student learning outcomes. A concluding chapter points to the ways in which these findings can be applied to decision making around IEP curriculum development and the future role of IEPs in higher education more broadly. With its focus on students in IEP settings and the concentration on data from students evaluated over multiple semesters, this volume offers a unique opportunity in which to examine longitudinal developmental patterns of different L1 groups on a variety of measures from the same learners and will be key reading for students and researchers in second language acquisition, English for Academic Purposes, language education, and applied linguistics.

**Key Issues in English for Specific Purposes in Higher Education**-Yasemin Kirkgöz 2018-01-08 This volume offers research-based studies on English for Specific Purposes in higher education from across the world. By drawing on international studies, the book brings together diverse ESP practices and aspects of relevant issues in the development of ESP programs, teachers and learners in a coherent fashion. There is a growing need for undergraduate students to develop their proficiency of ESP skills and knowledge in the increasingly globalized world. Knowledge of ESP is an important factor in subject matter learning by students, and also closely related to the performance of university graduates in the relevant sectors. Careful planning and efficient implementation are
essential to ensure the quality of the language learning process. For a variety of reasons, it proves difficult to maintain ESP instruction in higher education. These reasons include the incompetence of teachers, lack of materials for that specific context, as well as lack of opportunities for ESP teachers to develop their skills. The chapters in this book, taken from a wide variety of countries, shed light on the diversity of current practices and issues surrounding ESP.

Assessing Languages for Specific Purposes-Dan Douglas 2000 Testing language for specific purposes (LSP) refers to that branch of language testing in which the test content and test methods are derived from an analysis of a specific language use situation, such as Spanish for business, Japanese for tour guides, Italian for language teachers, or English for air traffic control. LSP tests are usually contrasted with general purpose language tests, in which purpose is more broadly defined, as in the Test of English as a Foreign Language. This book is the first to examine the issues surrounding the implementation of tests for specific purposes. It includes an in-depth discussion of the issues, an examination of the current exams, and a comprehensive overview of the literature. It will be a welcome addition to any language teaching professionals library.

Ideas and Options in English for Specific Purposes-Helen Basturkmen 2014-03-14 This volume presents a range of views about language, learning, and teaching in English for Specific Purposes (ESP). Its purpose is to go beyond individual cases and practices to examine the approaches and ideas on which they are based. The aim is for readers to adopt an analytical stance toward the field and to identify current perspectives in ESP and the ideas driving them. Ideas and Options in English for Specific Purposes does not promote any one approach, but rather
identifies and illustrates those in evidence today. The main emphasis is on the links between theory and ESP teaching and research. Ideas from linguistics, sociolinguistics, education, SLA, and social theories are described. Links are then made between these ideas and ESP course designs, instructional materials, and research projects. Thus the book moves back and forth between descriptions of theories, teaching practice, and research. Part I introduces the book’s approach to description of ESP and the framework used to investigate it. Part II examines ideas of language, learning, and teaching in ESP. Recognizing that ESP is taught in many different countries and contexts, the author draws on a wide range of examples of teaching practice and research from around the world and from different branches of ESP, including English for Academic Purposes, English for Professional Purposes, and English for Vocational Purposes. From Chapter 3 onward, each chapter includes Questions for Discussion and Projects, to encourage readers to research and analyze the practices of ESP in their own contexts and to consider the ideas they draw on in their own teaching. This text is geared toward graduate-level TESOL education courses.

Integrating Information and Communication Technologies in English for Specific Purposes - Rosa Muñoz-Luna 2017-11-07

This book fills the need for a text that integrates Information and Communication Technologies (ICTs) into English for Specific Purposes (ESP). It offers insights on current methodological principles in ESP in both academic and professional contexts, drawing on authentic teaching and learning situations, and analyses best practice guidelines. Part I begins with ESP pedagogical principles and technological practice in order to focus on its two main branches: English for Academic Purposes, which includes linguistic skills and students’ needs, and English for Occupational Purposes, specifically looking at Business, Medical and Translators courses. This book is a great resource for ESP researchers, educators and students, because it provides case studies of how ICTs can be used in English for multiple purposes. **Current Developments in English for Academic and Specific Purposes in Developing, Emerging and Least-Developed Countries** - Mark Krzanowski 2009-04-01

Current Developments in English for Academic and Specific Purposes in Developing, Emerging and Least-Developed Countries is a collection of papers which reflect the unique diversity of ESP and EAP in the developing world. While some of the papers present a historical overview of ESP and EAP in particular countries, the other papers are a representative sample of ongoing good practice in a specific context. The papers in the book are contributions of the members of the ESP SIG at IATEFL, and most of them were presented at the Pre-Conference Event in Harrogate (2006). The IATEFL ESP SIG hopes that this book proves a unique and timely publication for ELT and Applied Linguistics practitioners who wish to gain a better understanding of the specifics of EAP and ESP in developing, emerging and least-developed countries. The ESP Special Interest Group (SIG) is one of the fourteen SIGs at IATEFL, and its main focus is English for Specific Purposes, English for Academic Purposes and English for Occupational/Professional Purposes. The main objective of the SIG is to disseminate good practice in ESP (as well as in EAP and EO/PP) through its membership and to promote models of excellence in ESP to ELT professionals internationally through workshops, seminars and
Positioning English for Specific Purposes in an English Language Teaching Context - Nadežda Stojković 2019-01-18

With the unrelenting spread of globalization, the English language has been firmly established as the Lingua Franca. Now more than ever, the importance of learning English is paramount within nearly all professional and educational sectors. English for Specific Purposes (ESP) has long been accepted as an effective method for teaching English as a foreign language. In recent years, it has experienced an increasing presence in secondary and tertiary education across the globe. This is predominantly due to its learner-centered approach that focuses on developing linguistic competence in the student’s specific discipline, may that be academics, business or tourism, for example. Positioning English for Specific Purposes in an English Language Teaching Context attempts to present and define the relevance and scope of ESP within English Language teaching. From mobile phones as educational tools to the language needs of medical students, the contributors to this volume examine and propose different epistemological and methodological aspects of ESP teaching. Its unique approach to ESP marks this volume out as an important and necessary contribution to existing ESP literature, and one that will be of use to both researchers and practitioners of ESP.

Towards a New Paradigm for English Language Teaching - Hajime Terauchi 2019-11-20

This book proposes a new paradigm for English language teaching based on concepts from
English for Specific Purposes (ESP) research and applications as well as from growing evidence relating pattern recognition to language learning ability. The contributors to the volume argue that learners should not try to become proficient all-around users of ‘idealistic native-like’ English, but instead should be realistic about what they need to acquire and how to go about achieving their specific goals. The book discusses the present situation by describing the status quo of English language education in Japan, taking into consideration recent trends of CLIL (content and language integrated learning), EMI (English medium instruction), and TBLT (task-based language teaching) as well as the work done on the Common European Framework of Reference for Languages (CEFR). It introduces new movements in ESP in Japan and in other Asian regions, covering topics ranging from genre analysis to corpus linguistics, and presents application examples of ESP practice in a range of educational situations in Japan from the graduate school level to elementary and middle school contexts. It also offers readers application examples of ESP practice in a range of business settings and expands the discussion to the global sphere where EAP and ESP are gaining importance as the number of ELF (English as a Lingua Franca) speakers continue to increase. The book will be of great interest to academics, researchers, and post-graduate students working in the fields of EFL and ESL.

The Development of IELTS- Caroline Clapham 1996-07-11

**Present and Future Trends in TEFL**-María Elena García Sánchez 2001 The aim of this book is to develop a framework for describing the field as it currently exists together with well-established views. As far as possible the book describes rather than prescribes, to avoid taking up any single approach or theory regarding what constitutes the legitimate approach to TEFL research. Of course, the personal views of the authors will colour the account provided as it is impossible to separate description from interpretation. Thus, in a way, this book involves the theories, beliefs, knowledge, methods and practices of foreign language teachers and how these can enhance teacher education. This book is planned for pre-service or in-service teachers of a foreign language at primary, secondary or tertiary levels, although the criterions examined are useful to teachers of English as a foreign language, teacher trainers, or modern language teachers involved in teaching any language whether in Spain or overseas. Our main purpose is to help readers to help themselves. Accordingly, the reader is encouraged to be engaged in an examination of foreign language teaching and learning in hope of improving his/her practice and making language teaching more controllable, more interesting and more effective. The chapters are organized into four sections. In Section I, three chapters describe some perspectives in teacher education. In the first chapter, José M. Vez focuses on the hypothesis that the key to producing well-qualified EFL teachers is to greatly strengthen their professional learning across the continuum of a career in the foreign language classroom. He emphasizes the fact that foreign-language teaching must become a learning profession in order to prompt greater learning among foreign language students and describes the innovative aspects of foreign language teacher education. In the second chapter, Sheena Davies provides an overview of language teacher education...
today, with particular reference to English language teaching, discusses some current issues associated with the field, and gives notice of her experience working with both native speaker and non-native speaker teachers of English from all over the world on a variety of in-service and pre-service courses and seminars. In chapter 3, we examine the perspectives on teacher thinking and teachers’ beliefs in general, and about language learning in particular.

English for Professional Purposes - Miguel F. Ruiz-Garrido
2010-01 English in academic and professional settings has received great attention over the last 50 years, as its use has become a key asset for anyone interested in improving his/her chances of communicating internationally. However, it still offers rich opportunities for teachers and researchers working on English in specific settings. The aim of English for Professional and Academic Purposes is to offer an overview of several topics within the field of discourse analysis applied to English in academic and professional domains. The book compiles contributions from different origins, ranging from Japan to the USA and several European countries, and covers English as a native, second, foreign and international language. It also deals with various specialities, including academic writing, business discourse or English for medicine, nursing, maritime industry and science and engineering. This volume is divided into three sections: Discourse Analysis of English for Academic Purposes,
Professional English and EPAP Pedagogy, since it was conceived as a contribution to the research on how English is analysed as both the discourse of and for effective communication in academic and professional settings, and how it can be applied to teaching. This manuscript offers some fresh insights for those involved or interested in this field of expertise, in an attempt to shed some light on its latest innovations.
